## ***REASONS FOR ALLOWANCE***

1. The amendment filed 5/8/2007 has been entered. Claims 1-35 are pending in this Office action.

### ***Allowable Subject Matter***

2. Claims 1-35 are allowed.

3. The following is an examiner's statement of reasons for allowance: none of the prior art of the record discloses or suggests that a multimode spread spectrum receiver, comprising: an antenna, responsive to a radio frequency signal containing at least two types of code division multiple access signals, for providing a radio frequency electrical signal; a preprocessor, responsive to the radio frequency electrical signal, for providing a digital signal; and at least one multimode receiving channel block, responsive to the digital signal and configured to select, based on a predetermined selection criteria, one of at least two types of coding corresponding to one of said at least two types code division multiple access signals and utilizing said coding for further processing of said digital signal by said at least one multimode receiving block using a shared circuitry operation; further a code numerically controlled oscillator block responsive to the code control signal, for providing a numerically controlled oscillator clock signal; and a universal code generator, responsive to the numerically controlled oscillator clock signal and to the mode-generating selection signal, for generating and providing, based on the mode-generating selection signal, a first one of the at least two code signals for a corresponding first one of the at least two types of the code division multiple access receiver processing or a second one of the at least two code signals for a
